The following is an examiner's statement of reasons for allowance: the limitations of claim 1, which require a valve means arranged to connect the coolant circuits together upon activation of the retarder so that at least two coolant coolers are then used for cooling the retarder (48), and to disconnect the coolant circuits from one another so that they revert to being separate coolant circuits upon deactivation of the retarder, is not suggested by the prior art.

The limitations of claim 6, which require coolant circuits being connected together upon activation of the retarder so that at least two coolant coolers are then used for cooling the retarder, and by disconnection of the mutually connected coolant circuits from one another so that they revert to being separate circuits upon deactivation of the retarder, is not suggested by the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
